Summary of facts relevant to the allegation(s):

Information that is helpful includes: What is the problem? Who is involved? When, where and why did it happen? (Use additional sheets if necessary.)

The Inspector General initiated an investigation (SEB2009-000018) based on my remarks at the State Board of Election on January 21, 2009. I was never informed of the investigation. The IG brought the case before the Board of Elections on October 26, 2009 without notifying me. According to the SEB Summary, the IG simply confirmed my January statement without any explanation as to the cause of 285 blank electronic ballots being registered in a single-question referendum.

The limited investigation constitutes a waste of tax money and limited budget. The sparse information presented in summary raises the possibility of corruption and abuse of power.
